

## Cluster of Excellence invites to PhoenixD Laser Day

### Auf einen Blick

- "PhoenixD Laser Day" in autumn 2021
- Organisier: Cluster of Excellence PhoenixD
- Focus: Current research topics in optics and photonics
- Scientists can present posters

16. 2020

**PhoenixD | The Cluster of Excellence PhoenixD of Leibniz University Hannover hosts the "PhoenixD Laser Day". Invited are scientists and representatives of the industry with interest in optics and photonics.**

In autumn 2021, the "PhoenixD Laser Day" will take place at Leibniz University Hannover. The Cluster of Excellence PhoenixD organises the Day of Laser Technologies. Lectures and poster presentations will take place from 10 a.m. to 6 p.m. in the atrium of the Welfenschloss. Originally, the event was planned to take place on October 20, 2020, but was postponed by one year due to the coronavirus.

The main topics of the conference and networking event include quantum optics and photonics as well as laser systems, laser metrology and laser material processing among others. Further information on the conference and a registration form will be published on the cluster's website at [www.phoenixd.uni-hannover.de](http://www.phoenixd.uni-hannover.de). On the registration form, scientists can indicate whether they wish to present their research results at a poster session or not.
