

Hannover Messe 2016: Materials & Lightweight Construction Forum

Auf einen Blick

- Materials & Lightweight Construction Forum at Hannover Messe from
- 25 to 29 April 2016
- Lectures and talks on "Lightweight materials, structures and manufacturing"
- Hall 6, Stand D52, daily from 10 a.m.
-

08. 2016

IW | The focus of the Materials & Lightweight Construction Forum, taking place at Hannover Messe from 25 to 29 April 2016, will be on lightweight materials, structures and manufacturing. Presentations and talks on newly developed materials and practical solutions will show how to save cost and weight already in the early design stage.

With the Materials & Lightweight Construction Forum, the Institute of Materials Science (IW) and the Deutsche Messe AG are offering top-class experts from science and industry a platform for sophisticated lectures and discussions. Each day of the fair will be devoted to specific key topics:

Monday, 25.04.2016: Light metal alloys and lightweight structures

Tuesday, 26.04.2016: Ceramics / High-performance steels / Discussion forum

Wednesday, 27.04.2016: Fibre-reinforced composites and polymer materials

Thursday, 28.04.2016: Multi-material design / Adhesive bonding systems

Friday, 29.04.2016: Materials of the future / Designers of the future

The presentations and talks will be taking place during the Hannover Messe from 25 to 29 April 2016, daily from 10 a.m., in Hall 6, Stand D52. Refer to the detailed programme under <http://www.hannovermesse.de/exhibitor/werkstoff-leichtbau-forum/C385593>.

Free admission for visitors of Hannover Messe. Request complimentary tickets under <http://www.hannovermesse.de/ticketregistrierung?Rh3oma7ba4u2wk>
