

## Talks on lightweight design at Hannover Messe 2020: Apply now!

### Auf einen Blick

- Hannover Messe from 20 to 24 April 2020
- Presentations on lightweight design in Hall 23
- Call for Papers: Application till 31 January 2020

12. 2019

**IW | At Hannover Messe 2020, the Institute of Materials Science (IW) will give talks on lightweight construction. In the speakers' corner of Hall 23, specialists from industry and science will have the opportunity to speak about the topic. Applications can be submitted until the end of January.**

What is the future of lightweight construction? What are the possibilities of aluminium, magnesium and co.? Which role plays additive manufacturing? Which lightweight potential have steel materials? These and many other questions will be discussed in the speakers' corner at Hannover Messe 2020.

A whole week from 20 to 24 April 2020, every facet of modern lightweight design will be examined – from material lightweight construction to structural and system lightweight construction to innovative integration techniques. The speakers' corner is located on the Integrated Lightweight Plaza of Hall 23.

Till 31 January 2020, experts from industry and science are invited to submit their contribution. Please refer to the general Call for Papers of Hannover Messe: <https://www.hannovermesse.de/en/side-events/call-for-papers/>
