

Dr.-Ing. Peter Jäschke new Head of Department at the LZH

Auf einen Blick

- Dr.-Ing. Peter Jäschke is now heading the Production and Systems Department
- His predecessor, Dr.-Ing. Oliver Suttmann, is now working in industry
- Verena Wippo takes the lead of the Composites Group

03. 2019

LZH | Since 01 July 2019, Dr.-Ing. Peter Jäschke is heading the Production and Systems Department of the Laser Zentrum Hannover e.V. (LZH). He thus succeeded Dr.-Ing. Oliver Suttmann, who is now working in industry.

Dr.-Ing. Peter Jäschke has been working at the LZH for already 20 years and took over the leadership of the Composites Group of the Production and Systems Department in 2011. He studied physics at the Carl von Ossietzky University Oldenburg and obtained his doctorate degree (Dr.-Ing.) from the Leibniz University Hannover for his PhD thesis on "Laser transmission welding of continuously carbon-reinforced TPF plastics and thermoplastic polymers" in 2012. His main research areas are the processing of plastics and fiber composites.

The Composites Group will now be led by Dipl.-Ing. Verena Wippo, who has been working in the group as a scientific employee since 2011.
